

Human Resources Administration and Employee Services

Bring employee information, onboarding and everyday Human Resources processes into one adaptable application.

Jaggle.HR replaces fragmented administration across emails, spreadsheets, shared folders and disconnected systems with one structured environment for employee information, workflows and services.

What Jaggle.HR Brings Together

Employee Onboarding

- Candidate and new-hire information
- Personal and payroll-related data collection
- Document and certification uploads
- Onboarding and training tasks
- Assignment and monitoring of responsibilities

Employee Administration

- Central employee profiles and documents
- Leave balances and history
- Training and certifications
- Business travel and expenses
- Related requests and approvals

Employee Self-Service

- Policies, procedures and company resources
- Announcements, events and internal news
- Employee information and routine requests

Organisation and Workflows

- Organisation chart and reporting relationships
- Configurable approval workflows
- Role-based access
- Visibility into activities and process status

Business Value

Jaggle.HR helps organisations:

- Maintain one structured employee view
- Coordinate onboarding across departments
- Clarify responsibilities and pending activities
- Reduce repeated Human Resources administration
- Improve access to employee information and services
- Replace informal approvals with configurable workflows

Why Jaggle.HR

Adaptable

Forms, workflows, roles and approvals can be configured around the organisation's structure and processes.

Connected

Jaggle.HR can integrate with payroll, accounting, identity, document-management and operational systems according to each implementation.

Built to Evolve

New functionality and organisation-specific processes can be added as requirements develop.

Enterprise-grade

Built on the AI-powered Jaggle Low-code platform, Jaggle.HR benefits from role-based access, governance, auditing, deployment flexibility and data control.

Supported by Comsys

Comsys configures, integrates, extends and supports Jaggle.HR without requiring organisations to start a bespoke development project from zero.

A Focused, Adaptable Alternative

Jaggle.HR combines the structure of a dedicated Human Resources application with the adaptability of Jaggle.

It replaces fragmented administration without forcing organisations into rigid standard software or the complexity of a large Human Capital Management suite.

About Comsys

Comsys is a technology solutions provider with more than 35 years of experience in enterprise software and contact centre solutions. Since 1989, the company has delivered solutions across 22 countries, helping companies in sectors including telecommunications, financial services, energy, and retail. With Jaggle.eu, its AI-powered low-code application generation platform, and the broader CX expertise acquired, Comsys supports organisations modernising legacy environments, integrating with enterprise ecosystems, and delivering secure applications with 24/7 post-implementation support.
